

Template for comments and secretariat observations

Date: 2013-10-23	Document: ISO/DIS 15614-1:2013	Project:
------------------	---------------------------------------	----------

MB/ NC ¹	Line number	Clause/ Subclause	Paragraph/ Figure/ Table/	Type of comment ²	Comments	Proposed change	Observations of the secretariat
SE		8.3.1		te	In the last sentence before table 5, is the group or the subgroup intended? See further below. There is no reason to exclude the use of material group 9 and 10 from this standard. If the last sentence before table 5 apply this shall be consequent through the table, and thereby ranges for other groups be deleted.	Change from “material group/subgroup” to “material group”.	
SE		8.5.2		te	The welding position is not essential in relation to the properties of the weld. This restriction implies unnecessary tests when the requirement in clause 8.5.4 Heat input is met.	Delete clause 8.5.2	
SE		8.5.4		te	The requirements for heat input need not to be different for overlay than for joining.	Amend clause 8.5.4 to be in line with part 1.	
SE		8.6.1		te	Heat input is covered by clause 8.5.4. Electrode size makes no additional essential contribution to the properties.	Delete clause 8.6.1	

¹ **MB** = Member body / **NC** = National Committee (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

² **Type of comment:** **ge** = general **te** = technical **ed** = editorial
